

Fading An Image Into The Background Color

- **Select the image** you want to blend.
- In the **properties** panel **click** on the "**Canvas**" color box.
- Using the **eye dropper** tool sample a color from the **image**.
- Then in the **main menu** go to **Commands > Creative > Fade Image**.
- In the "**Fade Image**" window:
 - **Select the horizontal left to right fade.**
 - **Press the "OK"** button.
