

# Horizontal line effect in fireworks

---

## Step 1

Open an image.

## Step 2

Take the **Rectangle tool** from the toolbox and draw a rectangle over the image. The rectangle can be any color.

## Step 3

Select **Texture** from Properties and choose **Line Horizontal-3**. Give the Texture Amount to 50%.

## Step 4

Go to **Layers** and change the opacity of the rectangle to 35. You can try changing the color of the rectangle to match. Also play around with different textures same way.

Result is :
