

Transparent text

Step 1

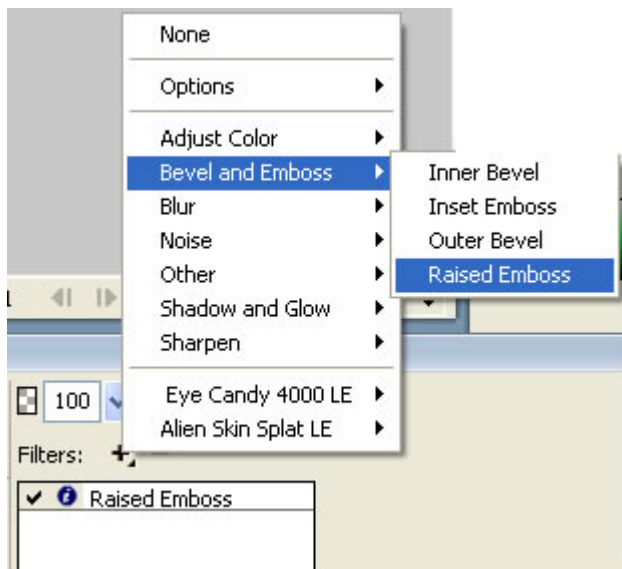

Open an image on the canvas.

Step 2

Type a text on the image and position it wherever you desire.

Step 3

Select the text and got to the **Properties** window below the screen, select **Effects>Bevel and Emboss>Raised Emboss**.

Step 4

Give the property values in the **Raised Emboss** properties as seen in the image below. Uncheck the **Show Object** option.
